

Guatemala December 6, 2018.

To: Ministry of labor
Guatemala Central America
I presented

Wishing you successes and blessings in each of your daily tasks.

Attentively and respectfully we addressed a group of women who have worked for the Canadian company called Golden Eagle, an international company that has created jobs for hundreds of Guatemalan women and men, in order to contribute to the development and economic progress of diverse families here in Guatemala; In this regard we have advised that the Golden Eagle institution has been the subject of a labor lawsuit by a group of colleagues who present allegations and different claims against the company described above, said demands totally unfounded as we a group of more than sixty women, we attest that the Golden Eagle company is a solid company that is responsible and complies with the labor rights of us as workers; So we join and we express our total and absolute support to this company that has opened its doors to us legally and with the main objective of financial support for our families by supporting us with job opportunities; in the sense we request you can support us in relation to authorizing or turning instructions where appropriate so that they can serve to authorize our departure and entry into the Golden Eagle institution; Because of the interim claim that the Golden Eagle institution is undergoing; They are limiting them to not being able to continue to bring people legally to work in the country of Canada. We state that several of us have traveled for 2 consecutive years and during this time we have never been subject to arbitrariness or abuse of any kind. For this reason, we pray that we will not be deprived of the right to work and work opportunities for the growth and development of our families, for only a small group of women who only see their personal and selfish interest, denying the opportunity to hundreds of other women. Desires of not only economic and social development but development as a country.

Without another particular. We enclose the name of each one of the interested ones not being able to sign by relation to the distance

Sincerely, group of women
Female workers Golden Eagle.
